## Animal crossing new leaf cafe guide

In the last two Animal Crossing games, Brewster owned a cafe inside the City Museum this time in New Leaf, the cafe is a standalone community project to be built when you go through the game. Read on to learn all about it: To build the cafe, some requirements must be met: Museum Store (second floor) built for about 7 days 50+ fish/bugs/fossils/paintings donated to the museum 298,000 bells if these requirements are met, you can build the Cafe Community Project. Now you can go to the cafe and pay 200 bells for a cup of coffee. After buying coffee 4 times you have the opportunity to go to your coffee. This means that you can walk around the descent and take a sip of coffee in a cup. One of the new additions to the cafe in New Leaf is the opportunity to work a part-time job there after buying coffee 8 times. You can work pretty much every day between 11:00 and 23:00, except on public holidays.

During your shifts in the cafe, a random selection of 4 villagers (and other characters like K.K. Slider) will visit the café and order coffee. They give you clues as to what kind of coffee they like, but they won't be quite specific, so some guesses will be required. At some point you need to remember their order as they start to ask only for the usual. (List here) Now of course you don't want to work for anything so good of Brewster has some prizes for your hard work. Depending on how many orders you get in one shift, you'll get different quality coffee beans for sale for Bells. Ordinary Coffee Beans – 500 Bells Good Coffee Beans – 1,000 Bells Very Good Coffee Beans – 2,000 Bells Don't worry, there's more than that! In addition to the Coffee Bean rewards, there is a cumulative sum of the right coffee order rewards. These are cafe-themed furniture (and a uniform) that are a must if you plan to create a cafe space in your home. Well, that's just a detail of everything you ever wanted to know about the Cafe in Animal Crossing: New Leaf. Discuss away in the comments below about the cafe! What reward do you most want? (Thanks to Zen and Jake for the information in this post) Sign up for our newsletter to get the latest Animal Crossing news, guides and email updates! Guides Japan News Le café de Robusto, contrairement aux précédents opus, n'est plus é l'intérieur du musée. C'est un projet de construction que l'on peut ou non débloquent dans Animal Crossing New-Leaf lorsque l'on est le maire de la ville. On apprendra successivement : - comment obtenir le café dans sa ville ; - ce que l'on peut y consommer ; - Comment travailler pour Robusto ; - quelles sont les récompenses données par Robusto. To obtain the possibility of building the café, it is necessary first of all to have already the 1st floor of the museum. To get this first floor, you have to do at the 20 donations to the museum, one for each of the rooms on the ground floor, i.e. a work of art, a fish, an insect and a fossil. When he talks to Thibou, the museum's guardian, every day, he will one day suggest that you build the first floor of the museum. You only have to visit marie in the town hall to build this extension. 2) After waiting at least 7 days after the construction of the first floor of the museum and if the number of donations to the museum this time is 50, while he continues to talk to Thibou, thibou will finally propose to us the construction of a café. 3) Then you can tell Maria that you want to start the construction project and then choose a location. The construction costs 298 000 bells. Once the money has been raised, construction can begin and the next day we can finally enjoy the facility. \_\_\_\_\_

..... Rest stool in front of the counter to enjoy a coffee on site for the small sum of 200 bells. This allows your character to regain his smile and energy. However, this mild moment of relaxation is only allowed once a day. After three days you can also take a takeaway coffee and this time stand on the right side of the counter. Robusto then gives you your favorite coffee for the same price in a disposable mug. Your coffee can be tasted in five times where you wish, and then it disappears from your inventory. \_\_\_\_\_

.....how to work for Robusto ? \_\_\_\_\_

This condition is fulfilled after she has spoken to him and consumed a coffee very regularly for 8 days in a row. Work can then begin the next day. Except for the festive season, the café can work for a few minutes and only once a day from 11 a.m. to 10 p.m. The task is to serve 4 customers (3 neighbors and a special figure) a coffee, respecting their taste. It is important to remember three things for each customer: 1- the type of grains: - a mixture, - the mocha, - the Kilimanjaro, - of Blue Mountain. 2- the amount of milk: - full, - the normal quantity, - a little, - no drop. 3- the number of sugars: - three, - two, - one, - - zero. In these guides you will find a the preferences of the inhabitants to facilitate your work. \_\_\_\_\_

..... Coffee and its value depends on the quality of our work. Robusto can give us either standard coffee beans worth 500 bells, high-quality coffee beans worth 1000 bells or coffee beans of excellent quality worth 2000 bells. These packages can be resold or collected at Risetete. In addition to the coffee bean packs, you can win gifts if you manage to make correct orders. - a coffee machine (16 correct orders) - an espresso machine (32 correct orders) - a siphon (48 correct orders) - a coffee cup (64 correct orders) - milk and sugar (80 correct orders) - a coffee grinder (96 correct orders) - an outfit (128 correct orders) - the 4 gyros by Robusto (160,192, 224 and 255 correct orders) To complete the information, you can watch these videos to give you an idea : page 2 theme : [Guide] Robusto Coffee New Theme List of Topics A very good guide that synthesizes everything that revolves around the coffee well. And this guide is also useful in that it proves that there is still a lot to discover ACNL now that the big events of the game are over and we are approaching the first anniversary of the game. in: Guides, Gameplay elements, New Leaf features, Gameplay Elements Share In New Leaf, the player has the opportunity to work in The Roost and serve coffee to the characters in their town. Occasionally, villagers that are not residents of the town will visit asking for coffee. When working at The Roost, the aim is to serve each customer a Perfect Coffee. This coffee guide below will indicate the composition needed for perfect coffee for each character. Each villager and special character has different preferences in their coffee, as listed below, and serving certain amounts of Perfect Coffees will reward the player with Café Series items from Brewster. Regular Villagers Regulars villagers always like their coffee with milk and sugar in the same amounts (in regards to how high the option is), so they are a bit easier to remember the orders for than with Special Characters, which will mention a specific preference at the counter, with the otherence prefers remaining the same.
